Leland Performance

Grab the wheel, stomp on the accelerator and hold on tight because you're in for some of the wildest ground-poundin', tire-bustin', hill-jumpin', teeth-rattlin' off-road racing you've ever seen—with Team Leland's "Ivan IRONMAN Stewart's SUPER OFF ROAD™!"

Designed under the hands-on supervision of three-time Baja 1000 winner Ivan "Ironman" Stewart. Check out these hard driving, heavy-duty features that leave the others in the dust:

**HIGH-PERFORMANCE
RACING-STYLE
STEERING WHEEL**

With a 320 oz. alloy rim, this steering wheel is designed for maximum control and performance. It's the only steering wheel that's been tested to withstand 10,000 lbs. of force.

**HIGH-DISPLACEMENT
CASH BOX**

A plastic 320 oz. alloy cash box that's designed to hold your cash and keys. It's the only cash box that's been tested to withstand 10,000 lbs. of force.

**ERGONOMIC
CASING DESIGN**

The ergonomic casing design is designed to provide maximum protection and comfort. It's the only casing that's been tested to withstand 10,000 lbs. of force.

OFF ROAD

**SPECIAL EDITION
HAMMERDOWN**

Model 125400

Hammerdown is the only off-road simulator available today. It's the only one that's built to last. It's the only one that's built to last. It's the only one that's built to last.

**"HAMMERDOWN"
ACCELERATOR PEDALS**

Heavy-gauge metal footplate and base are joined by an extra-rugged steel spring for years of dependable racing action.

**FULLY INTEGRATED
CONTROL PANEL**

The control panel is fully integrated into the machine's frame. It's the only one that's built to last. It's the only one that's built to last. It's the only one that's built to last.

IRONMAN'S SPEEDSHOP

Winning drivers can convert prize money into a dazzling array of muscle equipment when they wheel into IRONMAN'S SPEEDSHOP. Shocks, tires, supercharged engines and nitro packs are but a few of the goodies. All this plus—those gorgeous long-legged trophy girls who snuggle up and encourage prospective drivers to "get in the race!"

STATE-OF-THE-ART IRONMAN POWER SUPPLY

Compact powerhouse packs an incredible punch to launch race trucks in an explosive display of vehicular acrobatics unmatched in today's arcades.

MEGATUBE COLOR MONITOR

Huge 25" diagonal Wells-Gardner Monitor is the largest screen currently under the hood of any upright dedicated cabinet. Complete with full color control adjustments for perfect tune-ups.

ON-BOARD DIAGNOSTICS

Simplified computer guide provides instant troubleshooting and test, test, test repairs for typical video malfunctions.

IRONMAN RACE COURSES— FOR THOSE WITH GUTS ENOUGH

Sixteen tough arena courses whose names say it all: Sideshow, Wipeout, Big Dukes, Huevos Grande, Fandango, Blaster, Hurricane Gulch, and Cliffhanger.

Filled with jumps, bumps, grids and climbs—enough to cut the hair of the most aggressive off-road gadabout.

"Ivan IRONMAN Stewart's SUPER OFF-ROAD." It's got the guts to stay clear of the ruts. From Team Leland—the American game company that's driven by quality.

WARNING
to the competition:
The ROAD just got
a little rougher
